The cheap nature of Abolition sympathy for negro slaves—the total hollow-heartedness of Black Republicanism—has been admirably illustrated by the recent sale of a lot of young slaves in Missouri, by order of their Hopublican owners, residing in Farmington and vicinity.

A Mr. Rice died some three years ago, at Boonville, Missouri, where he resided, leaving an estate of some fifteen thousand dollars, about half of which was alaye property. Dying without issue, his brothers and sistere, and their representatives, inherited the estate. Three of these heirs reside in this town, one in Strong, one in New Sharon, one in Fayette, one in Gardiner, and one in Lowell, Massachusetts, and as we understand, every one of them belong to that class who are ever ready to "sbrick for freedom," and shed croedile tears over the sufferings of the "poor slave." This windfall, therefore, afforded an excellent opportunity to prove the sincerity of their professions.

Cincinnati Advertisoments. Ague Cure.

Intermittent Pover or Pever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers; indeed for the whole Class of Diseases origi-

nating in biliary derangement, caused by the Malaria of miasmatic countries. No one remedy is louder called for by the necessition of the American people than a successful safe ture for Fever and Ague. Such a remedy we are now enabled to offer, with a perfect certainty that it will cradicate the disume, and with

anny that it will evaluate the dissuss, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this discreter must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient ecapses the risk which he must run in violent attacks of this batchil distemper. This "Cure" expels the relasmatic poison of Freezi and Aven from the system, and prevents the development of the mattle poison of Feven And Acta from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best romedy over yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a sollar brings it within the reach of every body; and in billions districts, where Feven and a proposition of the price will place it within the reach of overy body; and in price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains certain care of Intervened for the speedy and certain care of Internitonts is, that it contains no Quinies or mineral, consequently it produces no quiniess or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the cons

Ease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disorders arise from its irrintion, among which are Neuralnia, Rheumatism, Gout, Headache, Bliadness, Toothache, Earache, Cataerh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Deraugement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Ctrue" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants, and persons travelling or temporarity residing in the malarious districts. If taken occasionally, or faily, while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC

FOR ALL THE PURPOSES OF A FAMILY PHYSIC are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is lowed down with pain or physical debitty is assimished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formiliable and dangerous diseases. The agent below maned is pleased to furnish gratis my American Almanac, containing certificates of their cure and directions for their use in the following complaints: Costiceses, Hearthorn, Headache arising from discretered Stomach, Nauses, Indigestion, Pain in and Marvid Inaction of the Bowels, Flatulency, Loss of Appetie, Janualice, and other kindred complaints, arising from a low state of the body or obstruction of its franctions.

Do not be put off by unprincipled Dealers with some other pill they make more profit on. Ask for Axun's Pills, and take nothing clee.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

So wide is the field of its usefulness, and so numerous are the cases of its cares, that almost every section of country abounds in porsons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
